UNLOCKING CORNISH POTENTIAL
Graduates for Cornwall's Businesses

The next Innovators' Forum event, titled **Ready Money**, is a chance for you to find out what the new R&D grants could do to help prepare your business for future success. We are also fortunate to have speakers from local companies willing to share their experiences of investing in their futures by focusing on research and development. We will close the evening with a Q&A session, giving you a chance to quiz an expert panel on potential R&D projects and how to access the new grants.

This event is brought to you by Combined Universities in Cornwall, working in partnership with the South West Regional Development Agency, Business Link and Unlocking Cornish Potential.
